

Side Panel Double Mount Kit

User Guide

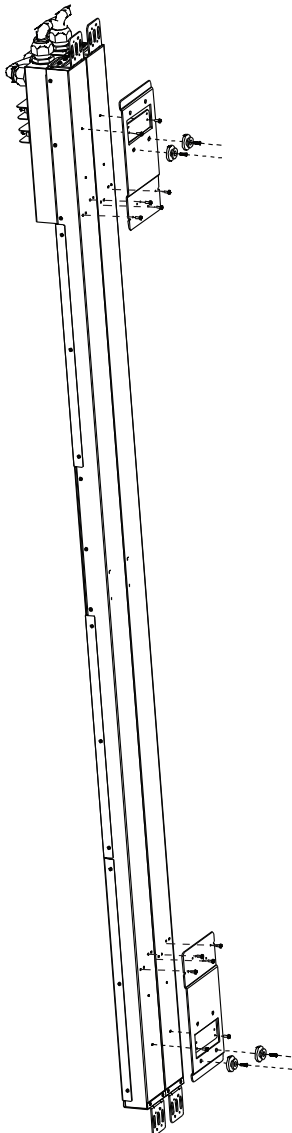

Installation:

Follow the instructions below to secure two PDUs together and mount them to a rack.

- 2 x Brackets
- 4 x Buttons
- 4 x Phillips Screws
- 12 x Hexagon Screws

Bracket Mount

Step 1: Hold the two PDUs side by side so that the bottom is flush and align the brackets with the holes on each PDU.

Step 2: Screw the brackets to the PDUs to secure them together at each end, and then install two buttons at each end of the PDUs, as show above.

Rack Mount

Step 1: Align the 4 buttons with 4 slots on the rack, insert and let the PDUs slide down and secure into place on the rack.
